

COURT OF COMMON PLEAS
PROBATE DIVISION
CLERMONT COUNTY, OHIO

F I L E D
MAR 18 2020

JAMES A. SHRIVER
JUDGE

IN RE: :
: **JOURNAL ENTRY**
ORDER DECLARING A JUDICIAL :
EMERGENCY AND CONTINUITY OF :
OPERATIONS OF THE COURT DUE TO :
COVID-19 PANDEMIC :

The Probate Division Judge of the Clermont County Court of Common Pleas makes the following Findings of Fact:

1. The Centers for Disease Control and Prevention (CDC) is responding to an outbreak of respiratory disease caused by a new coronavirus that was first detected in China and which has now been detected in more than 100 locations internationally, including in the United States. The virus has been named "SARS-CoV-2" and the disease it causes has been named "coronavirus disease 2019" (abbreviated "COVID-19").
2. On January 30, 2020, the International Health Regulations Emergency Committee of the World Health Organization (WHO) declared the outbreak a "public health emergency of international concern". On January 31, 2020, Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the nation's healthcare community in responding to COVID-19. On March 11, 2020, WHO publicly characterized COVID-19 as a global "pandemic" requiring "urgent and aggressive action" to control the spread of the virus.
3. According to the CDC, more cases of COVID-19 are likely to be identified in the United States in the coming days, including more instances of community spread. It is likely that at some point, widespread transmission of COVID-19 in the United States will occur. Widespread transmission of COVID-19 would translate into large numbers of people needing medical care at the same time. Public health and healthcare systems may become overloaded, with elevated rates of hospitalizations

and deaths. Other critical infrastructure, such as law enforcement, emergency medical services, and sectors of the transportation industry may also be affected. Healthcare providers and hospitals may be overwhelmed. At this time, there is no vaccine to protect against COVID-19 and no medications approved to treat it. Non-pharmaceutical interventions would be the most important response strategy.

4. The United States government has taken unprecedented steps to respond to the coronavirus and protect the health and safety of Americans. The U.S. government has cautioned that Americans should be prepared for the possibility of a COVID-19 outbreak in their community. The community can take measures to reduce the spread of COVID-19. As a vaccine or drug is not available for COVID-19, community-based interventions such as school dismissals, event cancellations, social distancing, and creating employee plans to work remotely can help slow the spread of COVID-19. Decisions about the implementation of community measures will be made by local and state officials, in consultation with federal officials as appropriate, and based on the scope of the outbreak and the severity of illness. Implementation will require extensive community engagement, with ongoing and transparent public health communications.
5. On March 9, 2020, Ohio Governor Mike DeWine issued Executive Order 2020-01D, "Declaring a State of Emergency," in response to the growing COVID-19 public health crisis. Governor DeWine and public health officials urged people to avoid large, indoor gatherings to minimize close-contact and potential exposure to the coughs or sneezes of others. Many Ohio colleges are going to online learning and extending spring breaks to keep students out of classrooms. Governor DeWine has ordered that all Ohio schools take an extended 3-week spring break beginning Monday, March 16. Sporting events have been canceled, including OHSAA, NBA, MAC, Big Ten, NCAA and all professional teams. On March 12, 2020, Governor DeWine and Ohio Department of Health Director Amy Acton, M.D., MPH signed an order to prohibit mass gatherings in the state of Ohio. Mass gatherings are defined as any event or convening that brings together 100 or more persons in a

single room or single space at the same time such as an auditorium, stadium, arena, large conference room, meeting hall, theater, or any other confined indoor or outdoor space. On March 16, 2020, the number permitted to gather was reduced to 50 people and all bars and restaurants were ordered closed. On March 17, 2020, the Ohio primary was cancelled by the Director of the Ohio Department of Health.
